Dance Floor LED Display

FD1.5(COD) FD1.8(COD) FD1.9(COD) F2.5(COD)
FD2.6(COD)

FD2.97 FD3.9 FD5.2 FD6.25

FEATURES:

➤ **INTERACTIVE**

Smart interactive sensor design

➤ **WATERPROOF & SKIDPROOF**

IP65 waterproof design and special skidproof mask design

➤ **HIGN LOAD-BEARING**

High load-bearing, 1.5T/sqm

➤ **GOOD HEAT DISSIPATION**

Heat sink design and aluminum cabinet, speed up the heat conduction

➤ **TWO INSTALLATION TYPE**

Rail or adjustable foot installation, optional

➤ **TWO CABINET SIZE**

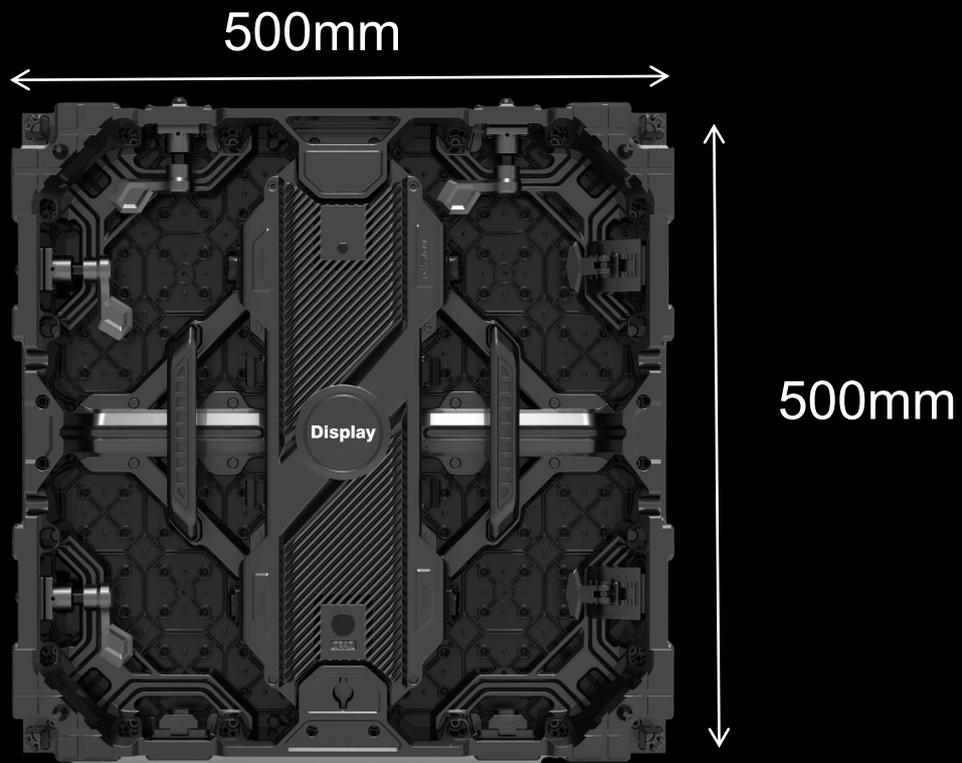

Cabinet size could be 500x500mm and 500x1000mm, optional

➤ **SUPPORT POLE DESIGN**

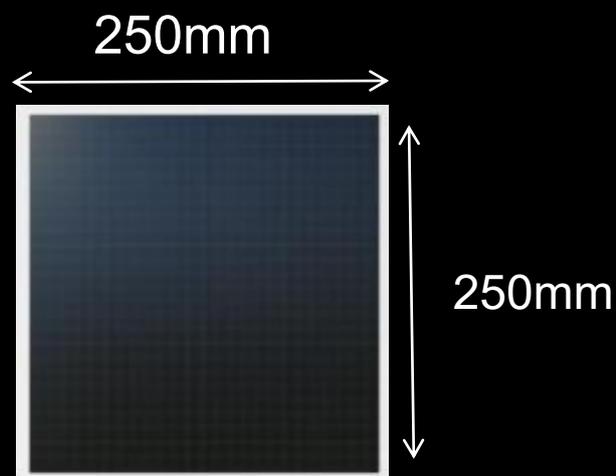

Special support pole design for aging, optional.

INTRODUCTION

Cabinet

Module

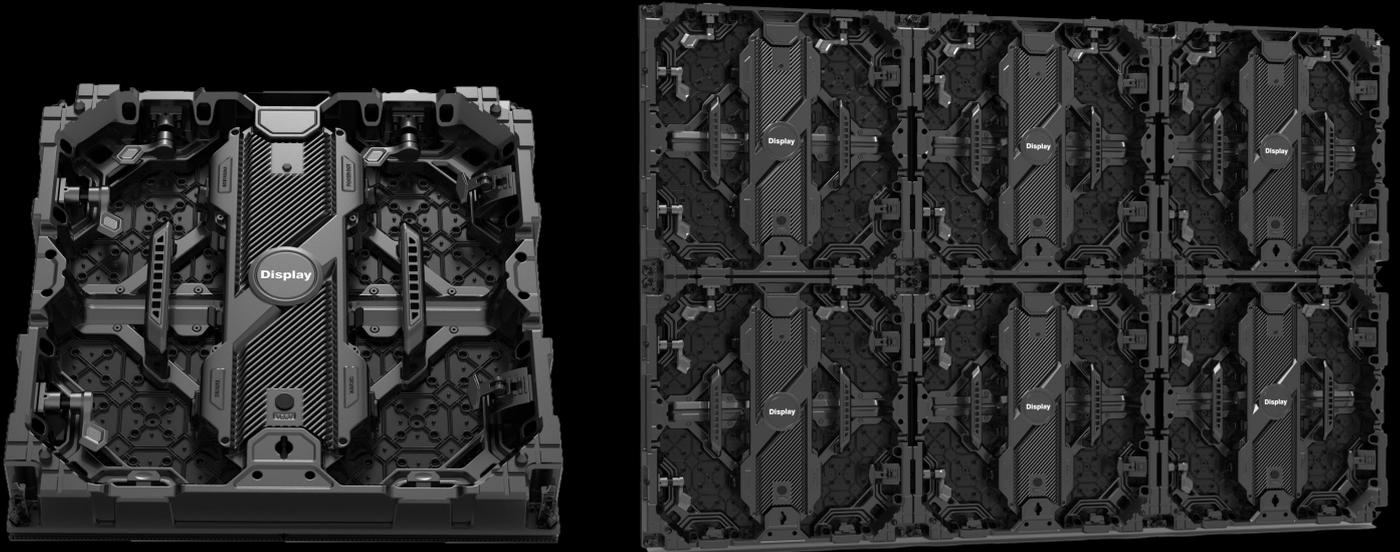

WATERPROOF & SKIDPROOF

HIGN LOAD-BEARING 1.5T/sqm

Rail or adjustable foot installation, optional

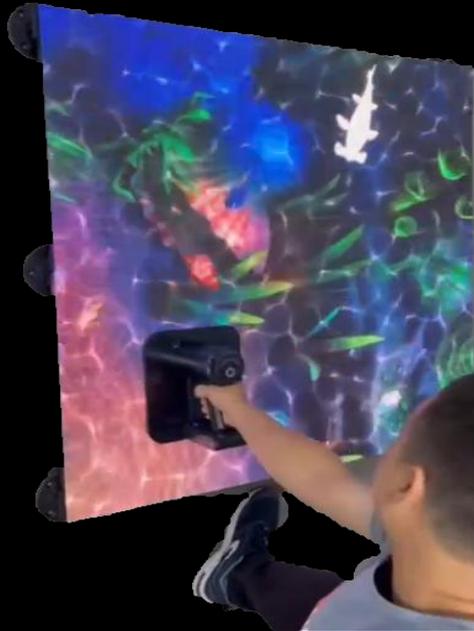

Rail installation

Adjustable foot installation

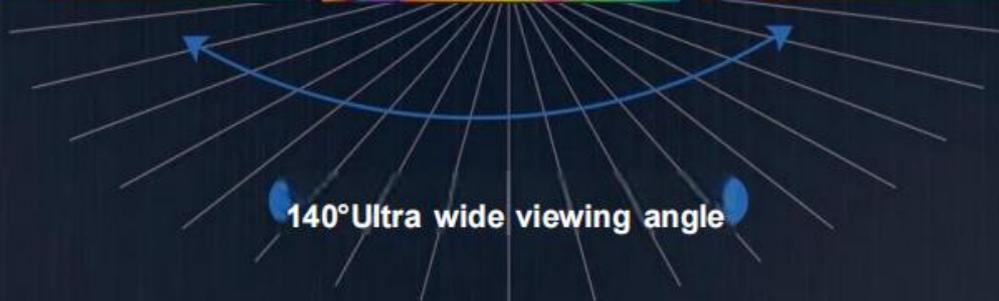

FULL FRONT MAINTENANCE

MAGNETIC TOOLS

HIGH BRIGHTNESS ANY LOW GRAY, PERFECT PICTURE QUALITY

140° Ultra wide viewing angle

F-DANCER PARAMETERS

Product Model:	FD1.5 (COD)	FD1.8 (COD)	FD1.9 (COD)	FD2.5 (COD)	FD2.6 (COD)	FD2.97	FD3.9	FD5.2	FD6.25
Pixel Pitch	1.56mm	1.86mm	1.95mm	2.5mm	2.604mm	2.97mm	3.91mm	5.2mm	6.25 mm
LED Type	SMD1010	SMD1212	SMD1515	SMD1515	SMD1515	SMD1415	SMD1921	SMD1921	SMD1921/2727
Mask	COD					Brown/creamy			
Cabinet Dimension (mm)	500*500								
Module Size(mm)	250x250								
Cabinet Weight	15kg								
Cabinet Material	Die-cast aluminum								
Load Bearing (t/m ²)	1.5-2.0								
Brightness:	700-1000nits					1000-4000nits			
Max/Avg Power(m ²)	800/280w								
IP Rating	F: IP54/R: IP31					F: IP54/R: IP53			
Refresh Rate	>3840Hz								
Gray Scale	14bit								
Viewing Angle	H: 140°; V: 140°								
Operational Temp	-20°C~+60°C								
Operational Humidity (RH)	10%-90%								
Installation	Rail/Adjustable foot								

APPLICATION

- Walkways and Entrances- the immersive LED floor display are very popular at the entrances of the award shows as it can easily create a matching environment according to the latest fashion.
- Museums- for creating more interest and creativity among students, LED floor screens are used for designing a floor according to the subject or topic of discussion.
- Dance stage- stage performances look more beautiful and immersive when it has excellent display effects through the use of these floor screens. These screens are also used at entertainment venues, stairs in bars, nightclubs and dance floors for appealing to the audiences.
- Showrooms- customers love stepping on interactive LED floor screens which displays interesting effects and information in an exciting manner. Viewing experience of the visitors are enhanced with the use of these floor screens when they step inside the showroom for purchase of any products or services.
- Shopping malls- the floor screens at the mall works as an excellent brand promotion vehicle that can convey any business message through visually appealing displays.
